1. Performance Disclosures: AMI Asset Management (AMI) is an independent investment management firm registered with the Securities and Exchange Commission since 1994. Registration does not imply a certain level of skill or training. AMI provides discretionary asset management services to institutional and individual clients through separately managed accounts using seven equity and fixed income strategies. The Domestic Small Cap Growth Composite includes all fully discretionary, fee-paying and non-fee-paying, taxable and nontaxable accounts with at least \$100,000 in small cap equities on the last day of each previous quarter. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross returns are presented before management fees but after all trading expenses. Net returns are calculated by deducting 1/4th of the highest applicable annual fee of 1.00% from the gross composite returns on a quarterly basis. Prior to July 1, 2019, net returns were calculated by deducting 1/4th of the highest applicable fee of 1.50% from the gross composite returns on a quarterly basis. The annual fee schedule for institutional accounts is as follows: 0.90% for the first \$10 million, 0.80% on the next \$15 million, 0.70% on the next \$25 million and 0.60% on the balance. Actual fees charged to clients may vary. Further information regarding investment advisory fees is described in Part 2A of the firm's Form ADV. Actual fees charged to clients may vary. Further information regarding investment advisory fees is described in Part 2A of the firm's Form ADV. Clients should not assume that managed accounts will attain similar investment performance in the future. All accounts are individually managed; therefore, returns for separate accounts may be higher or lower than the average performance stated above. Individual results may vary in the AMI Small Cap Growth Equity Strategy based upon the (1) individual account asset management fee, and (2) when the client enters and exits investment in the AMI Small Cap Growth Equity Strategy. The benchmark we use is the S&P 600® Growth Index which seeks to measure the small-cap segment of the U.S. equity market. The index is designed to track companies that meet specific inclusion criteria to ensure that they are liquid and financially viable and include the reinvestment of dividends. Constituents are drawn from the S&P 600®. Indices are unmanaged, and one cannot invest directly in an index.
